Helping You Create and Sustain
Strategic Competitive Advantage

Identifying Value & Waste

CLIENT SERVICES

Since 2002 Lean Business Systems have provided coaching based hands-on consulting to clients ranging from small, Irish owned indigenous companies to Fortune 500 companies. Our aim is to work with you to transform your business to a Lean Enterprise with the best system for fulfilling the Value Proposition of the customers you serve. At Lean Business Systems we judge our success by the success of our clients. To put it simply, we have done our job if you succeed.

Our Methodology

- The LBS team are expert in the application of Lean techniques in manufacturing and service organisations. Our methodology is very much a hands-on “Learn by doing” approach. We work closely with clients throughout all stages of our involvement, assisting to identify their vision, develop clear implementation timelines, meet their objectives, and measure ongoing progress.

Management Consultancy

- We provide coaching and management consultancy services to companies with particular focus on organisational performance, setting strategic direction and achieving measurable impact. LBS methodologies have been developed through a broad range of networks and international partnerships to ensure the tools deployed are results driven, are sustainable and have strong links to the bottom line.

Lean Training

- LBS offers a wide range of courses which are designed for individuals or organizations who want to be introduced to the subject of Lean implementation or those who are already on the “Lean road” and want to enhance their skills. The courses are available in a modular basis to suit all levels of experience while custom courses can also be developed for the specific needs of an organization. Our tutors are experienced Lean Business practitioners who have in-depth knowledge of Lean implementation across a wide range of industry sectors.

Interim Management

- LBS offers interim management support to companies as a cost efficient way of dealing with some of the following:

- ✓ Project Management for the duration of a specific programme
- ✓ Periods of absence of key staff member(s)
- ✓ Implementing change in an organization
- ✓ Before, During or after new Business Acquisitions
- ✓ Coping with sudden growth in a business

Lean Business Systems has engaged with companies located throughout Ireland and the United Kingdom in a variety of industry sectors. Our involvement has time and again demonstrated a return on investment for clients, sometimes in a short space of time. Some of the areas where we have considerable experience and success include:

Engineering and Manufacturing

- Working with both indigenous organisations and multinationals we assist companies to improve productivity, develop automation and new technologies, design of R&D roadmaps, and improve management and skills training.

Healthcare

- The implementation of Lean principles to identify inefficiencies, reduce waste and improve customer satisfaction.

Financial Services

- Working with companies to shape and define growth strategies, gain economies of scale, eliminate waste and reduce costs.

Lean Tool Kit

Regardless of your industry, product or services, the principles of Lean Transformation can be applied. LBS have extensive experience in the deployment of a wide range of tools to assist companies in achieving their business goals.

These include Value Stream Mapping, Hoisin Planning, Kaizen Events, Root Cause Analysis, 5S Workplace Organisation, Design for Lean, Poka-Yoke, Total Productive Maintenance (TPM) and Overall Equipment Effectiveness (OEE)

About Lean Business Systems

Lean Business Systems is a coaching based hands-on consulting firm with extensive Lean implementation and Management experience.

Since 2002, the company has acquired a broad range of experience working with clients ranging from small, Irish owned indigenous companies to Fortune 500 companies.

LBS works with its clients to transform their business using Lean principles, implementing the best system for fulfilling the Value Proposition of the customers they serve.

LBS team members are driven by their passion for achieving results, they are clear and direct with no jargon, they work with clearly defined plans and the overall philosophy to help their clients to “learn-by-doing”
